LF Foot Lateral

This is a lateral radiograph (X-ray) of a horse's hoof. The image shows the internal skeletal structure, including the distal end of the radius and ulna at the top, the cannon bone (third metacarpal) in the middle, and the phalanges (proximal and distal) at the bottom. The hoof wall and sole are visible as darker, more textured areas surrounding the lighter, smoother bone. The overall shape of the hoof is well-defined, and the bones appear to be in good alignment.
